**\*\*Ex - Official vehicles and competition vehicles of the era.**

**\*\*Vehicle model:** It is intended to bring together the largest possible type of models, and they will be selected in order of relevance in competition, either because of their purely sporting nature or because they were popular models in the rallies of different countries.

**\*\*Originality and decoration:** special priority will be given to those vehicles that have vintage decoration, whatever it may be, as long as it can be accredited with photos and (or) documents, that has participated in a rally in the past. Its originality at a technical level as well as its exterior and interior appearance will also have special relevance. Note that NO VEHICLE will be ACCEPTED and therefore NO vehicle will take part in the event in the case that auxiliary lights other than those of the time or that do not have the proper forms of the designs they once carried. Led displays and similar are prohibited, since the spirit of the event makes us inflexible with this type of lighting.

**\*\*Notoriety of the team:** the organisation may reserve the right to admit a team that due to its notoriety, may be of great interest for the event although, for whatever reasons, they do not have a car that fits the criteria described above.

The organization reserves the right not to let a team that does not comply with the requirements described above to participate.

The vehicles must be insured and have a valid MOT complying with the current traffic code.

The organisation takes no responsibility for teams not complying with current road traffic regulations.

#### **3.1. VERIFICATIONS**

**These will take place ONLY on the morning of Thursday, May 10, from 9:00 am to 1:30 pm**

#### **3.2. ADMINISTRATIVE VERIFICATIONS**

These will ensure the correct identification of the vehicle and concordance with the data of the entry form.

During administrative checks the driver must provide:

**\*\*Driving license and valid ID.**

\*\* If you are not the owner of the vehicle; a formal authorization of use issued by the owner of the vehicle if he/she is not present.

\*\* Logbook, valid MOT and current insurance certificate.

The Co-driver must provide:

\*\* Driving license and valid ID.

### **3.3. TECHNICAL VERIFICATIONS**

Each vehicle and participant must present themselves to the technical verifications at the convened time. This will be communicated to you at the time of administrative verifications, and will be carried out in the position assigned to each participant in the service park, avoiding the unnecessary transit of vehicles through the park.

#### **3.3.1. SAFETY.**

The organization will carry out the verifications reviewing the following points:

Verification of tires that must present a good appearance and condition.

Verification of the engine compartment paying special attention to the wiring, gasoline lines, brake fluid level, extinguishing equipment, etc. Everything must show an impeccable appearance. Verification of the clamping and insulation of the battery (if applicable).

Verification of lights and windshield wipers that must be in accordance with the traffic regulations.

Verification of security elements.

Vehicles must carry a warning signal triangle and two reflective vests.

Warning lights will be checked on all vehicles that originally carried them.

#### **3.3.2. SAFETY EQUIPMENT**

Besides the points mentioned above, the organizers will carry out verifications on the following complementary security equipment:

\*\*Roll cage

All vehicles must have a roll cage installed.

The vehicles that had one originally must respect this structure.

### **\*\*Bucket seats (fixing)**

The fixings of the buckets must be solid and conform to the rules. These fixings will be scrutinised with special attention.

### **\*\*Safety harness**

The organisation recommends using a 6-point FIA safety harness. The seatbelt system must be adapted to the concept of bucket type seats.

It is recommended to have a stanley knife for the safety belts in the vehicle.

The use of HANS is recommended.

### **\*\*Fire Extinguisher**

The vehicle must be equipped with at least one 2kg. extinguisher. It must be solidly fixed and accessible to both driver and co-driver. The date of the last revision should not exceed 2 years.

### **\*\*Battery**

The terminals of the battery must be protected against a short circuit. They must be isolated by adequate protection.

### **\*\*Helmet and balaclava**

During the special stages, the two occupants must wear approved FIA homologated helmet and balaclava.

### **\*\*Fireproof race suits**

During the special stages, the two occupants must wear approved FIA homologated fireproof race suits.

### **\*\*Fireproof undersuits**

The organization recommends the use of fireproof undersuits since the fact of wearing any other usual garment does not protect from fire and can lead to serious injuries in case of fire.

### **\*\*Fireproof boots and socks**

Under the same criteria described above, the organization recommends the use of fireproof boots and socks.

### **\*\*Fireproof gloves**

The use of fire proof gloves is also recommended by the organisation.

### **3.4 GENERAL EXAMINATION OF THE VEHICLE**

Upon completion of the technical checks, the organization may reject the participation of a vehicle considered "non-compliant".

### **ARTICLE 4: EVENT DEVELOPMENT**

Two people, properly dressed seated and secured, with helmets on for the special stages, will be authorized to be on the vehicle.

The departure interval between cars will not be less than 1 minute, and this can be increased by the organisation at their discretion if necessary.

The helmet can not be worn in the links between special stages open to the public.

#### **4.1. RECCIES**

Traffic regulations must flow in all cases during reccies.

### **ARTICLE 5: PENALTIES**

#### **5.1. INITIAL START**

The start may be rejected by the organization in case of:

-Delay of more than 15 minutes over the time of departure, or at the end of any of the special stages.

-Falsification of any of the vehicle documents or driver's license.

#### **5.2. DISQUALIFICATION**

The disqualification from the event may be decided by the organization in case of:

- Dangerous driving, unfair maneuvering, or unsportsmanlike conduct.

**\*\* At this point it should be noted that the descent of the Peña Cabarga special must be carried out in a civic manner, following the rules of the current traffic code as it is a link section and the permitted speed limits can not be exceeded.**

- Dishonest behavior towards the organisation, officials, other participants or towards the public.

-Do not respect the road signs, ignore the orders of the race director or the signals presented by the track marshals (red, yellow flags ..).

- Do "donuts or burnouts" deliberately in any part of the route.

#### **ARTICLE 6 : INSURANCE**

The participant is solely responsible for any material damage that may occur to his/her vehicle during the event. These will not be in any case the responsibility of the organisation.

It is responsibility of the participant to check with his/her insurer if they are well covered for this type of event.

The organisation recommends that foreign participants sign a repatriation policy.

The organisation will subscribe an insurance policy guaranteeing civil liability according to what is established by law for this type of event.

#### **ARTICLE 7 : COMPLIANCE WITH THE REGULATIONS AND RULES OF BEHAVIOUR.**

From the moment of registration, each participant is committed to read these regulations and:

Accept and respect the decisions of the organizers.

All unforeseen cases in which this regulation is not respected will lead to exclusion without any come back.

Any participant who intentionally blocks the passage to the rest of the participants will be immediately excluded.

The organization reserves the right to make any changes to this regulation or the program of the event, and also to partially or totally cancel the event if the circumstances require it.

#### **ARTICLE 8: CIRCULATION AND SERVICE**

##### **8.1 CIRCULATION ON THE LOOP TYPE SPECIAL STAGES**

At the time of circulating through the loops, the following rules are established:

-It will be mandatory to respect the indications of the "road book" in such a way that no more laps can be given than those stipulated in this, under penalty of exclusion. Likewise, the prohibition of making donuts or burnouts under the same sanction is remembered.

-All vehicles must allow overtaking by faster cars from behind and in no case block it. The procedure will be as follows:

- 1) Decrease speed while warning your co-driver.
- 2) Indicate it's safe to them to pass by operating your right side indicator.
- 3) The co-driver will activate the "GPS unit" to warn his preceding that they give way to them with total safety at the time of performing the maneuver.

-For the "lineal" special stages, the same standards are established.

## **8.2 TOWING ; ASSISTANCE IN THE SPECIAL STAGES**

In the event of a breakdown during the course, the participant will signal it by means of the signaling triangle, once the vests have been put on and also through the hazard lights, if there is poor visibility for the coming vehicles.

The route marshals will indicate the presence of danger in the section by means of a yellow flag (waving or fixed flag)

All mechanical intervention has to be done by the participant. The assistance and / or towing of the participant in the special stages will not be possible until the organization designates it.

Any participant who decides to skip part of the route for technical, personal or other reasons, must notify the organization before the next section.

-In the event of a breakdown, participants can resolve it and re-engage to the next section through the "super rally." To do this, it will be enough to fill in the super rally sheet that is printed in the road book and present to the event director.

## **8.3 SERVICE PARK**

### **8.3.1. Service park closure**

The service park will close and must be empty at 24h on the 10th and 11th of May 2018.

### **8.3.2. Behaviour in the service park.**
